Residents will have views of the Nashville skyline through large windows and private terraces.

Priced from \$1.65m, the residences range from one to four bedrooms and feature exclusive private services as well as direct access to all of The Nashville EDITION hotel's amenities.

An exclusive suite of private amenities is available for residents including a gym, a dining room with an adjoining terrace for private events, a lounge and wet bar, a catering kitchen, and a terrace with outdoor dining areas and grill stations.

Residents also have access to a golf simulator, a game and screening room, an outdoor pool deck and a private dedicated lobby for residents with valet and concierge services.

The hotel's pool, spa, in-residence dining and multiple planned food and beverage venues will also be on offer to residents.

Tidal Real Estate Partners and Left Lane Development have led the development in collaboration with Marriott International.

The exterior has been designed by award-winning Nashville architecture firm ESa whilst interiors have been completed by New York-based INC Architecture & Design.
